Swanton Morley VC Primary School

Primary PE and Sport Premium Funding Plan - Swanton Morley VC Primary School

Academic year: **2025/2026**
Total fund allocated for this academic year: **£17,550**

Key Objectives 2025/26:

- **Ensure that we** continue to **deliver all appropriate training/support in relation to 'real PE'** (including use of supplementary resources), and monitor the CPD needs of the staff, especially in light of our new staff .
- The school will **continue to engage in external sporting events**, primarily through utilising our WNDSSP membership and **focus on providing clubs** (before, during and after school).
- **To continue to improve and update the resources available in PE** lessons in order to provide children with the necessary tools to achieve the best possible outcomes across the PE curriculum. Some of these resources will also be made available at break & lunchtimes to encourage a greater range of sporting activities and practice of skills.
- **To continue to maximise the use of our swimming pool** so that children get the opportunity to receive **additional swimming** from YrR - Yr6 and continue to do this even after they have achieved their required distances.

Swanton Morley VC Primary School

The desired 5 key outcomes from this funding are:

1 – The engagement of all pupils in regular physical activity
2 – The profile of PE and sport being raised across the school as a tool for whole school improvement
3 – Increased confidence, knowledge and skills of all staff in teaching PE and sport
4 – Broader experience of a range of sports and activities offered to all pupils
5 – Increased participation in competitive sport

Action	**Rational & Intended Impact**	**Key outcome indicator**	**Funding allocation**	**Evaluation** (Rag Rating - July 2026)
We plan to continue with our membership of the West Norfolk and Dereham School Sports Partnership (WNDSSP), including access to the annual PE Conference	Our annual membership to the Sports Partnership ensures we have access to a large range of competitive events and makes sure pupils can access high quality sporting environments on a regular basis. The partnership provides competitive events that we will consistently access for all the year groups and gives our sports teams competitions to practice for and work towards. Our pupils take part in a wide range of events, including swimming galas, football, athletics, cricket, cross-country, netball and football. The partnership also provides CPD opportunities that we utilise and effectively engage with. Their members can deliver training to our staff including specific,	1,2,3,4,5	**£3,400**	*2025/26* Notes: A large number of children in year groups 1-6 have had opportunities to participate in a range of PE and sporting events that they would not otherwise have done so. This has included groups such as: Disadvantaged, SEND and Girls **Evidence**: children's attendance at

	targeted support areas that have been identified in conjunction with our PE coordinators. The intention is that this will further develop the confidence and capability of class teachers in delivering high quality PE lessons.			events and supporting photos
Continued purchase of 'real PE' scheme and subsequent sports equipment necessary to implement this, including break and lunch time equipment	Top-Up real PE refresher training for staff CPD where required PE coordinators consulting with class teachers to ensure all staff/children continue to take ownership of the school's sports equipment. In this way good standards are maintained, and stocks will be refreshed accordingly. This will also help to ensure that all the sport teaching we deliver in light of real PE, is appropriately resourced and that suitable resources are available at break and lunch times.	1,2,3	**£695**	*2025/26* Notes: Real PE continues to make an impact on the quality of PE well beyond the classroom, especially in KS1. For example, equipment and skills that can be used at break/lunch and in specific clubs. Real PE has had less of a sustained impact in KS2 and as a result we are moving away from this in these classes next year. Instead we have developed our own bank of planning/resources.

To use a HLTA and SLT member with PE specialism to provide **extra** & **additional** sporting opportunities in order to champion PE across the school	Ensure the HLTA has access to a range of sporting opportunities (WNDSSP) in order to effectively fulfil the **additional** responsibilities. Ensure SLT have sufficient time to carry out responsibilities daily at lunch/break A range of sporting clubs eg cross country, athletics, football (boys and girls) to be offered to pupils from both key stages over the year, often acting as training time in preparation for competitive sporting events that the school will take part in. Focus on establishing play leaders and ensure that these pupils are effectively trained in outdoor games to engage other pupils in fun physical activity outside of curriculum time	1,2,4,5	**£7504**	*2025/26* Notes: The HLTA has been able to organise and attend a wide range of additional sporting activities with children from Yr1-6. The SLT member has run a daily break & lunch football club for Yr6 boys throughout the year. Without this funding the children would not have been able to attend these extra events or take part in the clubs. The play leader's role needs further development next year in order to ensure that training/support continues to be sustainable.

				Evidence: attendance of children at clubs, sporting events and presence of play leaders
We will continue to use a proportion of our sports premium to staff the running of the pool, ensuring **extra and additional opportunities** for children at our school.	Ensure our swimming instructor effectively supports the teaching of swimming for our pupils. As a result, the pupils' swimming activity is **well over and above the National Curriculum requirements**. Pupils from both key stages will receive the equivalent of a swimming session every other school week in the school pool (three half termly blocks of swimming per year) and will continue to swim even once they achieve the required distances. Swimming sessions, including before school, will continue to prepare pupils for competitive events and galas (both internally and externally) that give them an opportunity to demonstrate the level of expertise they have achieved due to the level of extra practice they receive at school.	1,2,5	**£5951**	*2025/26* Notes: Children from YrR-Yr6 continue to use the pool throughout the year and benefit hugely from these extra opportunities to swim. This is particularly important for an increasing number of our children who do not get the opportunity to swim outside of school due to cost/home circumstances. **Evidence**: All children on our school register swim regularly throughout the year (YrR – summer term only).

				By the end of Yr6 **96% of children achieved 25m, 96% used x3 different strokes effectively and 96% gained a water safety award**

Total budgeted spend: **£17,550**
